Showing Meeting-house, Academy, Schoolhouse and Town House

ROCHESTER ... 300 YEARS OF HISTORY

MANY THANKS TO WINFIELD JENNEY AND THE MAT-
TAPOISETT HISTORICAL SOCIETY FOR THESE EARLY
VIEWS OF THE HEART OF ROCHESTER AS IT APPEARED

AT THE TURN OF THE CENTURY AND BEFORE. ON OUR
COVER, THE TOP PICTURE IS THE TOWN HOUSE BUILT
IN 1811 AT ROCHESTER CENTER. PHOTO BELOW AT
THE SAME LOCATION IS THE MEETING HOUSE OF THE
FIRST PARISH, THE ACADEMY AND THE TOWN HALL
BUILDING - ALL OF THESE STILL FAMILIAR AT ROCHE-
STER CENTER.

THE PHOTO ABOVE ON THIS PAGE IS AN EARLIER
VIEW SHOWING THE LAYOUT OF THE COMMON BEFORE
THE TOWN HOUSE WAS REPLACED BY THE PRESENT
TOWN HALL. THESE PHOTOGRAPHS WERE ILLUSTRATIONS
FOR THE BOOK MATTAPOISETT AND OLD ROCHESTER.

HOMELITE 150 Automatic

\$175⁴⁵
including
CARRYING CASE

Designed specially for the man who wants power, balance and control at a price. Homelite's exclusive SAFE-T-TIPTM prevents kickback, keeps you in control of this hemihead 2.6 cubic inch engine as it delivers steady, dependable cutting power. Simple design and construction mean easy service and less of it. Automatic chain oiling, easy-to-operate controls, functional design and precision balance let you tackle big wood cutting jobs with little effort. All-weather ignition system with high voltage magnetos means fast starts. Plastic coated Sure-Grip handle bar for greater control. Large capacity fuel and oil tanks mean fewer refueling stops. The Homelite 150 Automatic delivers big saw performance at a small saw price.

lure of free grants and participating programs.
Today, thanks to remote control, all towns
are in dangerous condition.

The first week of January 56 sperm whale
beached themselves in Baja, California.
Scientists were reported puzzled. Perhaps
the cause was that one whale looked over
to see where its companion was headed.
The companion looked back to see where
the first was headed. Then all 56, com-
fortable that they had checked the trend,
swam up on the beach and died.

Town government now operates similarly.
One town checks the other town. The
other town checks the first. All proceed
on a similar course dictated by state law-
makers.

The course could be 5% suicide. For ex-
ample: by state dictate one town official
made over \$430 per week last year. Let's

COUNTY ROAD, MATTAPOISETT. 758-2543

use the \$430. round figure and disregard
health insurance, liability insurance,
vacation pay, sick leave, retirement bene-
fits and other odds and ends.

\$430 @ 5% per year	per week	per year
in 5 years	\$548.80	\$28,537.65
in 10 years	\$700.42	\$36,422.08
in 15 years	\$893.93	\$46,484.82
in 20 years	\$1140.91	\$59,327.72
in 25 years	\$1456.13	\$75,718.85
in 30 years	\$1858.43	\$96,638.57

The above example admittedly is one of
the better paid town officials (excluding
school department) but the minimum wage
earner at the very bottom of the scale &
if increased at the same percentage of 5%
would be drawing \$10, 587 in 10 years;
\$17,246 in 20 years and \$28, 092 in 30 years
(plus whatever fringe benefits on that scale
are awarded to public servants). This is just
conjecture, of course, and up to Congress.

The big question is: are the union de-
mands following a 5% cost of living jump
or are they leading it? The other question
is: at what year along this route does the
town notice that all the other "whales" are
on the rocks? The final question is, con-
sidering that wages make up the major cost
of government, how do the cities and towns
of Massachusetts comply with the new

Governor King's dictate to hold the line,
according to his "mandate"?

Decision

COURT DECISION FAVORS TOWN
ALSO ORDERS ACCESS TO ROCHETTE PROPERTY

In a decision of January 16, 1979 Francis W. Keating, Justice of the Superior Court of Plymouth, entered a judgement in favor of the Town of Mattapoisett, William F. Hubbard, Richard W. Blasdale and John N. DeCosta. The Justice found that the Board of Selectmen are under no legal duty to issue a recordable document for access through town barn land to the Rochette garden since a revokable license issued for the life of the Rochettes by vote of the Town Meeting of April 3, 1978 is subject to future town meeting vote and is not transferable to any future owner of the Rochette property. (On August 15, 1978, the Board of Selectmen voted not to execute a recordable instrument conveying the revokable license.)

In a second decision, the Justice ordered the Mattapoisett Highway Surveyor, Manuel

binding upon Highway Surveyor Manuel Nunes. Judgement was found in favor of the Rochettes preventing the Highway Surveyor from interfering with their right to pass over the town barn property.

Council on Aging MATTAPOISETT

In this issue of Presto Press we have inserted our usual monthly ad, showing the schedule of trips planned for the month of February and the first two days of March. Please cut the ad out and keep for reference. You will note one or two new trips, and one or two that we have not made recently. We are trying to get variety, and welcome any suggestions from Seniors, or others, for places to visit, or events to attend. If any group wishes to get together for an ice show or theater, we will be glad to try to arrange transportation. It is difficult for us to have to buy tickets in advance, not knowing how many will be needed.

May we again remind Seniors that reservations can be made by calling at, or phoning (758-3758) the Selectmen's Office between the hours of 10:00 A.M. and 12:00 Noon on Monday (Tuesday if Monday is a holiday) and Thursday. At this time of the year we may occasionally have to cancel a trip because of the weather.

Introducing the Savings Check-Up.

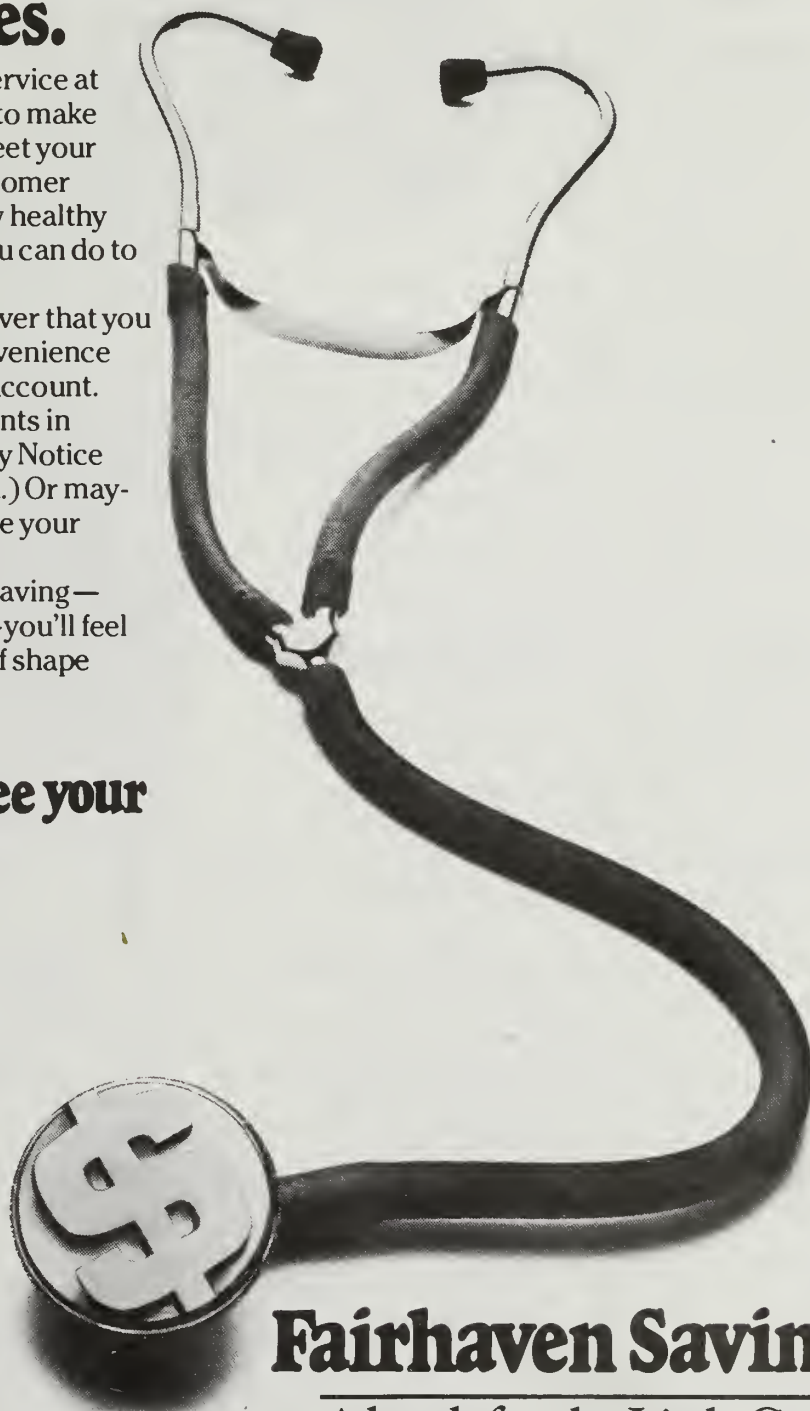

**Think of it as a physical
for your finances.**

The new Savings Check-Up service at Fairhaven Savings is a simple way to make sure you're on the right track to meet your savings goals. Your Fairhaven Customer Counselor can tell you exactly how healthy your savings plan is—and what you can do to make it stronger.

For example, you might discover that you can get more interest or more convenience by switching to a different kind of account. (We offer 9 different savings accounts in all—from regular savings to 90-Day Notice accounts to Certificates of Deposit.) Or maybe you'll find that you should divide your savings between two accounts.

No matter how much you're saving—no matter what you're saving for—you'll feel better when you know what kind of shape you're in.

**For your
Savings Check-Up, see your
Customer Counselor.**

STEAM POWER FROM NEW BEDFORD'S PAST

They don't make toys like they used to. The age of plastic has transformed the world of toys to a light and colorful wonderland of marvels for detail and function. However, with all these advantages, the test of time has yet to be made. The toy at right has withstood such a test and passed with flying colors. This toy engine made of cast iron and brass was a beauty in its day and remains so. This is a Weeden Steam engine measuring 7" x 6" x 5". It is a working model powered by electrically produced steam. It has regulator, steam whistle and flywheel and a pulley to transfer the power to practical use. Fifty or so years ago was the time of tinker toys and erector sets and this engine could furnish the power for any project that a young engineer could screw together.

This toy was one of the products of a New Bedford firm operating between the years of 1887 to 1923 at 157 North Water Street, New Bedford in what is now the historic district. The Weeden Toy Manufacturing Company moved in 1923 to Elm Street,

THE INTERBANK CARD

We are pleased to have Barry Barnes, owner of "Town H O", a needlework shop in Brewster, demonstrate pulled thread work.

"Sea Spray's" evening meeting will be held Monday, February 5th, at 7:00 P.M. in Eleanor Johansen's shop, "Needle Mania", on Route 6, Mattapoisett.

New members are most welcome.

Thursday, January 18 - Purple outplayed Orange 19 to 10 to take a well deserved victory. Blue stung Red with a late surge to win 20 to 14. Fairhaven, a team that's been hard to beat, took Gold 9 to 0.

Friday, January 19 - Gold gets a forfeit from Green. White vs. Purple. White with excellent offensive power beat Purple 32-16. The Black and Blue game sounds as tough as it was. Black the winner 20 to 15.

This week's outstanding player is Russ Bailey. Russ' excellent shooting and fine team play made him an easy pick.

a zero visible population in the winter months. This Saturday, the Museum Outdoors will offer a field walk to discuss the reasons so that we can all answer children's questions on the subject of how, why, where, and what do bugs do in the cold season? Bring the children so they can observe for themselves. Free. Starts at 10:00 A.M.

PARENT ADVISORY COUNCIL MEETING

The Old Rochester Junior High School Parent Advisory Council will meet at 7:00 P.M. Tuesday, January 30, in Room A222 at the Junior High School. Title I parents are also invited to attend. There will be a discussion of this year's program and an opportunity to suggest directions for next year's program. Mr. James M. Pasquill, Title I Director, will explain the services available in the high school to students coming from the Title I program. There will also be an opportunity for parents to speak informally with the Title I staff on student programs.

grams may be obtained by writing Massa-
chusetts Junior Miss Program, Box 930, Hy-
annis, MA. 02601 or at any of the four lo-
cations of the Puritan Clothing Company
Stores on Cape Cod. Tickets will also
be available at the door.

This year's event, one of the largest in
the thirteen year history of the Massachu-
setts Program, promises to be an upbeat
show demonstrating poise, appearance, and
youth fitness. Miss Joyce Ann Kruczek of
Raynham, 1978 Massachusetts Junior Miss,
will be on hand for the week long event.

Judging at all levels is based on schol-
astic achievements, performing talents,
physical well-being, perception and abili-
ties in human relations.

Nationally, 30,000 volunteers plan and
conduct local and state activities, and
six major companies serve as national
sponsor -- Breck, Coca Cola USA, Kodak,
Kraft and Simplicity Patterns. The national
Junior Miss Corporation is a non-profit
organization.

Parents, teachers, businessmen, and civ-
ic groups in some 1,400 communities
throughout the nation join forces each
year to conduct the local Junior Miss pro-

ARTHRITIS IS TOPIC

Guest speaker at the YWCA Wednesday Luncheon on January 31 is Ms. Linda Dudish, Support Group Coordinator for the Arthritis Foundation. Ms. Dudish will show a movie about arthritis and distribute pamphlets. Information on the local Support Group and the Arthritis Clinic at St. Luke's Hospital in New Bedford is available.

The luncheon is open to the public.

LAP PLUNGE

The YWCA is offering a lap plunge every Wednesday at 7:30 P.M. This time will allow the serious swimmer to build up stamina and strength, and provide the prospective life-saver with extra pool time.

SOLO PARENTS

An informal coffee and conversation meeting at the home of a member is planned by the YWCA Solo Parents' Club on Tuesday, January 30. "Coping with the Responsibilities of Being a Single Parent" is the discussion topic. The meeting will begin at 7:30 P.M.

each year. For the victim of heart failure, the first four to six minutes are the most critical of their life. Every year over 600,000 Americans are stricken with cardiac arrest. 350,000 of those stricken die before reaching the hospital. Thousands of these people could have been saved with the assistance of immediate emergency treatment. For heart attack victims who were fortunate enough to have been aided by a trained CPR administrator, there are no words to express the value of these concerned citizens.

Six thousand, nine hundred and thirty Southeastern Massachusetts residents are trained CPR administrators. Only 1.3% of the population in Southeastern Massachusetts is qualified to administer CPR.

attended an assembly at the High School where subject area coordinators and guidance personnel presented them with an overview of the high school curriculum. They were also given information on college entrance requirements and broad career goals and how their choices can affect these requirements. During the same week all 8th grade students had an opportunity to tour the high school to view the facilities and to get an idea of the opportunities for study available.

Parents of all students in grades 8-11 were given an opportunity to hear the curriculum and opportunities at Old Rochester Regional High School described at an evening meeting in January. Mr. Edward Spalding, Director of Guidance, joined with the Guidance Department and the subject area coordinators in giving a comprehensive overview of the high school course of study.

All students have received course of study booklets and selection sheets and should be consulting now with parents on their choices for next year. Completed selection sheets must be signed by parents. If there are any questions or problems, parents

ROCHESTER CETA PROJECT EXTENDED

CETA workers in Rochester can add a town-wide litter cleanup to their work schedule, following a decision by the New Bedford Consortium.

The area's CETA agency recently granted a nine-month extension to Rochester's CETA-funded beautification project. The move allows the project's twelve CETA workers to do jobs requested by town officials which could not be completed during the initial phase of the project.

The project, originally due to end January 20, will now continue until September 28. The request for an extension was made by Acushnet/Rochester CETA Coordinator Louis Berard.

The litter cleanup is among new jobs to be undertaken during the next nine months. CETA workers on the project also are expected to clear brush around town hall, aid the Rochester Woman's Club, do work at the town cemetery and repair flooring at the town hall. When it snows, they will help clear fire hydrants and catch basins.

They will continue to trim and clear dangerous intersections and prune and clear under-

SHERIFF'S SALE

COMMONWEALTH OF MASSACHUSETTS

PLYMOUTH, ss. Plymouth, January 18, 1979

Seized and taken on execution and will be sold by Public Auction on Wednesday, the 28th day of February, A.D. 1979, at 9:45 o'clock A.M. at the Deputy Sheriffs Office at 11 Russell Street in Plymouth in said County of Plymouth, all the right, title and interest which Robert J. Fay had (not exempt by law from attachment or levy on execution) on the 1st day of December A.D. 1978 at nine o'clock A.M., the time when the same was seized on execution in and to the following described real estate to wit:

the land, with any buildings thereon, in said Mattapoisett, bounded and described as follows:

BEGINNING at the southeasterly corner of the land to be conveyed at a point in the northerly line of Massasoit Way, said point being the southwesterly corner of Lot 14 on plan herein-after mentioned;

thence NORTH 7° 47' 35" EAST by last-named land, one hundred forty-five (145) feet to the southerly line of Lot 15 on said plan; thence WESTERLY by last-named lot and by Lot 16 on said plan, one hundred twenty-five (125) feet to the northeasterly corner of Lot 12 on said plan;

thence SOUTHERLY by said Lot 12, one hundred forty-five (145) feet to the said northerly line of Massasoit Way; and thence SOUTH 82° 12' 25" EAST in said line of Massasoit Way, one hundred twenty-five (125) feet to the point of beginning. CONTAINING 18,125 square feet.

BEING shown as Lot 13 on Section No. 1, Mioni Highlands, Mattapoisett, dated December 14, 1964 and filed with the Plymouth County Registry of Deeds in Book 3191, Page 216.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the POWER OF SALE contained in a certain mortgage given by Eugene Smith and Lydia Smith of 860 Brock Avenue, New Bedford, Massachusetts to Mary Ramos Perry (now Mary Semedo) of 141 Shawmut Street, Chelsea, Suffolk County, Massachusetts, dated March 25, 1953 and recorded with the Plymouth County Registry of Deeds in Book 2263, Page 356, of which mortgage the undersigned is the present holder, for breach of the conditions of said mortgage and for the purpose of foreclosing the same, there will be sold at public auction at 10:00 A.M. on Friday, February 16, 1979 on the premises all and singular the premises described in said mortgage, to wit:

The land in Mattapoisett, Plymouth County, Massachusetts, with the buildings thereon, bounded and described as follows: BEGINNING at a point in the east line of the State Highway leading to Marion, at a corner of the wall; thence SOUTH 73° East, in line of land of one Reynolds, one hundred thirty-three (133) feet to land formerly of Julia Crampton; thence NORTH 15 1/4° East, in line of a fence and last-named land, one hundred twenty-two and 8/10 (122.8) feet to a corner of the fence at land of said Crampton; thence NORTH 70° West, one hundred twenty-nine and 3/10 (129.3) feet in line of a fence to said State Highway; and thence SOUTHERLY in line of said highway one hundred twenty-nine and 9/10 (129.9) feet to the point of beginning.

SUBJECT to all unpaid real estate taxes and any other municipal liens or assessments.

Terms of Sale: Ten per cent (10%) deposit in cash, certified check or cashier's check will be required of the purchaser at the time of the sale. The balance will be due at the office of Louis Barry Russell, Esquire, 558 Pleasant Street, New Bedford, Massachusetts, Attorney for the Mortgagee, within thirty days of the date of sale. Other terms of sale will be announced at the time and place of sale.

LEGAL NOTICE

SEWER USE REGULATIONS

The Board of Selectmen, acting as Sewer Commissioners, of the Town of Mattapoisett, Commonwealth of Massachusetts, acting in accordance with the provisions of Chapter 40, Section 21 and Chapter 83, Section 10 of the General Laws, as amended, hereby adopted the following Rules and Regulations governing connection to and use of the Town's common sewers.

ARTICLE I DEFINITIONS

Unless the context specifically indicates otherwise, the meaning of terms used in this Regulation shall be as follows:

- SEC. 1: Applicant shall mean any person requesting approval to discharge wastewaters into Municipal facilities or for a new connection to the public system.
- SEC. 2: "BOD" (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20°C, expressed in milligrams per liter.
- SEC. 3: "Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning ten (10) feet (3.05 meters) outside the inner face of the building wall.
- SEC. 4: "Building Sewer" shall mean the extension from the building drain to the public sewer or other place of disposal.
- SEC. 5: "Combined Sewer" shall mean a sewer receiving both surface runoff and sewage.
- SEC. 6: "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.
- SEC. 7: "Industrial Wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business as distinct from sanitary sewage.
- SEC. 8: "Natural Outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or groundwater.
- SEC. 9: "Person" shall mean any individual, firm, company, association, society, corporation, or group including a city, county or other governmental unit.
- SEC. 10: "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.
- SEC. 11: "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch (1.27 centimeters) in any dimension.
- SEC. 12: "Public Sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.
- SEC. 13: "Sanitary Sewer" shall mean a sewer which carries sewage and to which storm, surface, and groundwaters are not intentionally admitted.
- SEC. 14: "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface, and stormwaters as may be present.
- SEC. 15: "Sewage Treatment Plant" shall mean any arrangement of devices and structures used for treating sewage.
- SEC. 16: "Sewage Works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.
- SEC. 17: "Sewer" shall mean a pipe or conduit for carrying sewage.
- SEC. 18: "Shall" is mandatory; "May" is permissive.
- SEC. 19: "Slug" shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes, more than five (5) times the average twenty-four (24) hour concentration or flows during normal operation.
- SEC. 20: "Storm Drain" (sometimes termed "Storm Sewer") shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.
- SEC. 21: "Superintendent" shall mean the Superintendent designated by the Sewer Commissioner of the Town of Mattapoisett, or his authorized deputy, agent, or representative.
- SEC. 22: "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

LEGAL NOTICE

SEC. 23: "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

SEC. 24: The "Board" shall mean the "Board of Sewer Commissioners" of the Town of Mattapoisett.

ARTICLE II BUILDING SEWERS AND CONNECTIONS

SEC. 1: No person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Superintendent.

Any person proposing a new discharge into the system or a substantial change in the volume or character of pollutants that are being discharged into the system shall notify the Board of Sewer Commissioners at least forty-five (45) days prior to the proposed change or connection.

SEC. 2: All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner.

SEC. 3: A separate and independent building sewer shall be provided for every building required to have sewage collection and treatment by a proper government authority with the following exception:

- a. Any multiple family complex, a commercial complex, or an industrial complex which has a privately owned and maintained collector system.

SEC. 4: Old building sewers may be used in connection with new buildings only when approved in writing by the Superintendent.

SEC. 5: The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and back filling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town and specifications of the Sewer Commissioners. In the absence of code provisions or in amplification thereof the materials and procedures set forth in appropriate specifications of the A.S.T.M. and W.P.C.F. Manual of Practice No. 9 shall apply.

SEC. 6: Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by means approved by the Town's plumbing Inspector and discharged to the building sewer.

SEC. 7: No person shall make connection of roof downspouts, exterior or interior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.

SEC. 8: The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A.S.T.M. and the W.P.C.F. Manual of Practice No. 9. All such connections shall be made gastight and watertight.

SEC. 9: The applicant for a building sewer permit or sanitary sewer connection permit shall make application on a special form furnished by the Town. The permit application shall be supplemented by any plans, specifications and or other information considered pertinent in the judgment of the Superintendent. The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Superintendent or his representative.

SEC. 10: All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Superintendent.

SEC. 11: The Board shall establish a Schedule of Entrance Fees and may amend the same from time to time. The Entrance Fee shall be a unit charge for each dwelling or business unit serviced by a direct or indirect connection made to a public sewer. This fee shall be paid prior to any work being commenced by the Town or the Owner to effect such connection. A single family house or one apartment unit shall constitute one dwelling unit and each individual business in a shopping center or business complex shall constitute one business unit. This fee shall be paid for each unit connected directly to the Town's sewer system as well as for each unit which is later added on to a sewer system which eventually deposits sewage into the Town

system. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has paid the required Entrance Fee.

SEC.12: Entrance Fees are established pursuant to Article II Section 11 shall not include installation and connection costs. All costs and expenses incident to the installation and connection of the building sewers, the installation of or the connection of sanitary sewers shall be borne by the Owner. The Owner shall indemnify the Town from loss or damage that may directly or indirectly be occasioned by the installation of the building sewer or the connection for the sanitary sewer. The Board shall establish a Schedule of Charges for the installation and connection of building sewers and the installation of connections for sanitary sewers and may amend the same from time to time. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has deposited with the Town a certified check, payable to the Town of Mattapoissett, in the amount determined by the Superintendent. In the event the cost of the installation and connection of a building sewer or the installation of a sanitary sewer exceeds the amount deposited with the Town by the Owner, then the Owner shall reimburse the Town for all costs exceeding the amount deposited. If reimbursement is not made, the costs shall be considered a lien upon the property served by the said building sewer.

SEC.13: All private sewers laid by private parties in any street, court or way, open, or proposed to be opened for public travel and accommodation, shall become public sewers when connected to public sewers or drains. After the adoption of this Regulation no such sewer shall be connected with a public sewer until plans showing size, material, construction, depth, and location are approved by the Superintendent and until the owner shall convey in writing to the Town exclusive control over the same, with the right to enter such street, court or way and dig up the same so far as necessary for repairing and controlling such sewer or drain and making connections therewith.

ARTICLE III USE OF THE PUBLIC SEWERS

SEC. 1: No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

SEC. 2: No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

- a. Any gasoline, benzene, naphtha, fuel, oil, or other flammable or explosive liquid, solid or gas.
- b. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant.
- c. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.

SEC. 3: No person shall discharge or cause to be discharged any substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such substances, materials, water or wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming this opinion as to the acceptability of these substances, materials, waters or wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. This prohibition shall include but not be limited to the following:

- a. Any liquid or vapor having a temperature higher than one hundred fifty (150°)F (65°)C.

- b. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100)mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32°)F and one hundred fifty (150°)F (0° & 65°)C.
- c. Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the Superintendent.
- d. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not, unless heavy metals and other sludge have been adequately removed from said wastes in the opinion of the Superintendent.
- e. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
- f. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.
- g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
- h. Any waters or wastes having a pH in excess of 9.0 or any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
- i. Materials which exert or cause:
 1. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 2. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 3. Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 4. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
- j. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

SEC. 4: If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters or wastes contain the substances or possess the characteristics enumerated in Section 3 of this Article, and which in the judgement of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

- a. Reject the wastes.
- b. Require pretreatment to a condition acceptable to the Superintendent for discharge to the public sewers.
- c. Require control over the quantities and rates of discharge, and/or
- d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Section 9 of this Article.

If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, ordinances, and laws.

SEC. 5: Grease, oil, and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent and shall be located so as to be readily and easily accessible for cleaning and inspection.

LEGAL NOTICE

SEC. 6: Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

SEC. 7: When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters, and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safety located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

SEC. 8: All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this regulation shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken). Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.

SEC. 9: No statement contained in this article shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Town for treatment, subject to payment therefore, by the industrial concern.

All industries discharging into a public sewer shall perform such monitoring of their discharges as the Board of Sewer Commissioners and/or other duly authorized employees of the Town may reasonably require, including installation, use, and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the Board of Sewer Commissioners. Such records shall be made available upon request by the Board of Sewer Commissioners to other Agencies having jurisdiction over discharges to the receiving waters."

SEC.10: No septic tank solids shall be discharged into the Town's sewage works. All septic tank waste shall be discharged in accordance with regulations of the Mattapoisett Board of Health and/or Massachusetts Department of Public Health.

ARTICLE IV INDUSTRIAL WASTES

SEC. 1: The Board is authorized and empowered to enter into agreements or to make other arrangements for handling and treating industrial wastes which in its opinion are amenable to treatment in the Town of Fairhaven's Sewage Treatment Plant.

The Board, shall determine charges to be levied against various industries for the handling and treating of its industrial wastes.

ARTICLE V PROTECTION FROM DAMAGE

SEC. 1: No person shall maliciously, wilfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to arrest and criminal prosecution.

ARTICLE VI POWERS AND AUTHORITY OF INSPECTORS

SEC. 1: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this regulation.

LEGAL NOTICE

SEC. 2: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

ARTICLE VII PENALTIES

SEC. 1: Any person found to be violating any provision of this regulation, except for violations of the terms of Agreements entered into pursuant to Article VI, shall be served by the Town with written notice stating the nature of the violation.

The offender shall, within the period of time stated in such notice, permanently cease all violations. Posting of notice on the property shall be construed as service of notice, if a copy of said notice is mailed to the owner as shown on the Assessor's Records at the address shown on said records, said mail to be sent Certified Mail, Return Receipt Requested.

SEC. 2: Any person who shall continue any violation beyond the time limit provided for in Article VII, Section 1, shall be guilty of a misdemeanor, and on conviction thereof, shall be fined in an amount not exceeding twenty (\$20.00) dollars for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

SEC. 3: Any person violating any of the provisions of this regulation shall become liable to the Town for any expense, loss, or damage including reasonable legal fees, occasioned the Town by reason of such violation.

ARTICLE VIII VALIDITY

SEC. 1: All rules and regulations or parts of rules and regulations in conflict herewith are hereby repealed.

SEC. 2: The invalidity of any section, clause, sentence, or provision of this regulation shall not affect the validity of any other part of this regulation which can be given effect without such part or regulation.

ARTICLE IX PERMIT

SEC. 1: Prior to any person installing or repairing a building, sewer and/or sanitary sewer or making any connection to the common sewer, the owner and contractor shall obtain a Special Work Permit from the Sewer Commissioners. The Permit shall be on such form as the Sewer Commissioners shall determine from time to time and shall fix the time of inspection of the work by the Sewer Commissioners or their designee.

SEC. 2: Any person applying for such Work Permit shall pay such fee as shall be fixed from time to time by the Sewer Commissioners. The fee shall cover the cost of issuing the permit and the inspection of the progress of the work.

SEC. 3: No person doing any work under a Work Permit shall cover over such work until the same has been inspected.

SEC. 4: A contractor who violates the provisions of this Article may, after hearing by the Sewer Commissioners, be denied any further Work Permits and any owner who hires such a contractor and knew or should have known of the violation or violations may be denied further Work Permits.

SEC. 5: The Sewer Commissioners may revoke any Work Permit for a violation of these Regulations, or the Sewer Commissioners may stop any further work under a Permit if they are of the opinion that said work may cause injury to the common sewer.

SEC. 6: The Sewer Commissioners may order any corrective work they believe necessary to any connection to the common sewer which they believe will avoid injury, harm or potential injury or harm to the common sewer system or the Fairhaven treatment plant.

ARTICLE X VARIANCE

SEC. 1: The Sewer Commissioners, after a public hearing, may grant a variance from the Regulations to any property owner or occupant of land to be connected to the common sewer, if in the opinion of the Sewer Commissioners the allowance of a variance is in the best interest of the Town of Mattapoisett.

LEGAL NOTICE

SEC. 2: Any such variance shall be in writing and filed with the records of the Sewer Commissioners and a copy filed with the Town Clerk. No variance shall become effective until said variance is so recorded.

SEC. 3: The Sewer Commissioners, after a public hearing and for cause may revoke any variance previously given.

ARTICLE XI REGULATION IN FORCE

SEC. 1: This regulation shall be in full force and effect from and after its passage, and publication as provided by law.

BOARD OF SELECTMEN, ACTING AS SEWER COMMISSIONERS

William F. Hubbard, Chairman
Richard W. Blasdale
John N. DeCosta

January 10, 17, 24, 1979

SPECIFICATIONS FOR THE CONSTRUCTION OF HOUSE CONNECTIONS TO THE MATTAPoisETT SEWER SYSTEM

The following specifications detail minimum standards that must be followed by contractors installing sewer connections that tie into the Mattapoisett Sewer System.

I-GENERAL: No construction can be initiated unless a permit for the connection has been obtained from the Mattapoisett Board of Selectmen/Sewer Commissioner in accordance with the Mattapoisett Sewer Use Regulation. In addition, the Contractor must be licensed to perform such work in the Town of Mattapoisett and must be properly insured to protect private and public property.

The Contractor/Homeowner should check with the Mattapoisett Board of Selectmen/Sewer Commissioners to locate the house service that has been left at the property line for each home. Ties are available to locate the pipe in the field.

The existing house service is capped and is generally marked with a wooden stake to aid in locating. The cap to the existing sewer should not be removed until all water in the trench is removed. No surface drainage or groundwater should enter the existing house service. The Building Inspector will not allow any construction without proper dewatering of the trench and proper control of any surrounding surface water.

II-MATERIALS: The following materials can be used for the construction of a house service in Mattapoisett.

- a.) Asbestos Cement Pipe, minimum class 1500, with couplings and rubber rings for joints.
- b.) Plastic Pipe meeting ASTM D 30-34 with a SDR 35. Joints shall be bell and spigot with rubber rings.
- c.) Cast Iron Pipe meeting AWWA-H3 (ANSI A21.50) with rubber gasket joints in accordance with AWWA C111 (ANSI A21.11). In most cases a 4" house service has been left for each homeowner. Thus, the house connection pipe shall be 4" unless otherwise noted.

III-CONSTRUCTION:

- a.) Excavation by the Contractor shall consist of a trench with a maximum width of 3 feet. The final 6 inches of the trench shall be excavated by hand so that proper bedding for the pipe and the bells is attained.
- b.) In the construction of sewer house connections, the pipe shall be laid on an even-tamped foundation of coarse sand, fine gravel or 3/4" crushed stone except that when wet or soft soil conditions prevail, 3/4" crushed stone shall be used for foundation of all pipe. The backfill shall be thoroughly compacted by tamping or other approved methods up to the spring line of the pipe.
- c.) Pipe shall be laid to a reasonable straight line and preferably at not less than 2% grade. For a 4 inch pipe, a grade of 1/4"/ft. is required with 1/8"/ft acceptable for 6 inch pipe.
- d.) The Contractor shall insure that a minimum of 4 ft. of cover is provided over the house connection pipe. If cast iron pipe is used, the cover may be reduced to 3ft.

LEGAL NOTICE

e.) Installed pipe and joints shall be free of all foreign matter. No construction will be allowed in water. The Contractor must dewater the trench to insure proper installation of the pipe.

f.) Care shall be taken during backfilling to insure that the pipe is not injured or disturbed by stones or other material. Backfill material to a foot above the pipe shall be a granular material with no large stone on or near the pipe. The backfill shall be thoroughly compacted by tamping or other approved methods up to finished grade.

g.) Before backfilling the pipe, the Contractor must notify the Building Inspector that the house service connection is complete and ready for inspection. No final tie-in of the house plumbing to the new pipe can be made without a final review and approval of the Building Inspector.

h.) The final connection to the cast iron pipe from the home shall be made watertight by using a special fitting or adaptor that is available for the pipe. No other connection will be approved for use in Mattapoisett.

i.) The house service pipe should be laid in a separate trench 5 ft. away from an existing water service or gas service. Deviations from this must be brought to the attention of the Building Inspector.

j.) Should the above procedure not be followed, the Building Inspector is authorized to reject the house connection work. Corrective action in accordance with the above will be required before final acceptance and a connection to the Mattapoisett sewer system can be made.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of a power of sale contained in a certain mortgage given by KENNETH A. ELLIS and PATRICIA T. ELLIS, husband and wife, of Fairhaven, Bristol County, Commonwealth of Massachusetts to NEW BEDFORD FIVE CENTS SAVINGS BANK, a corporation established by authority of the Commonwealth of Massachusetts and doing business at New Bedford, Bristol County, said Commonwealth, dated April 14th, 1976 and recorded with Plymouth County Registry of Deeds, Book 4152, Page 431, of which mortgage the undersigned is the present holder, for breach of the conditions of said mortgage and for the purpose of foreclosing the same will be sold at public auction on Wednesday, February 7th, 1979, at 11:45 o'clock A.M., on the premises, all and singular the premises described in said mortgage, to wit:

Land situated in Mattapoisett, Plymouth County, said Commonwealth, bounded and described as follows:

"BEGINNING at the southwesterly corner of the land herein mortgaged at the northeasterly corner of Highfield Road and Oliver Way;

thence NORTH 4° 28' 50" WEST by said Oliver Way, one hundred twenty-three and 54/100 (123.54) feet to a stone wall; thence NORTH 73° 47' 40" EAST in line of said stone wall by land now or formerly of Ella F. Vaughan, one hundred sixty-two and 94/100 (162.94) feet to land now or formerly of Norman Soares, et ux;

thence SOUTH 17° 56' 00" EAST by last-named land, one hundred twenty-two (122) feet to the northerly line of said Highfield Road; and

thence SOUTH 73° 47' 40" WEST in said line of Highfield Road, one hundred ninety-one and 70/100 (191.70) feet to the point of beginning.

BEING the westerly portion of Lot #2 on Plan of Land in Mattapoisett, Mass., surveyed for Thaddeus Walega and Edwin Livingstone, Jr., dated July 30, 1963, Samuel H. Corse, Surveyor, filed with Plymouth County Registry of Deeds in Book 3074, Page 94.

BEING the same premises conveyed to us by deed of William K. Wilbur, et ux, of even date to be recorded herewith."
